## Red Cross Notes

The Calgary Mobile Blood Donor Clinic paid its second visit to Bassano on Saturday last in charge of Dr. D. Thomas, Miss Gross, and Miss Hardwick. Forty donations of blood were taken, four less than on the previous visit, the cut of town donors did not respond as good as the last time. The medical staff Executive of this Branch express their sincere thanks to all who donated, or loaned articles for use in the clinic, especially to those acting as nurses, and to those who served refreshments to the blood donors.

### ASSEEDTIME HARVEST

By DR. K. W. PRATHER

Director

Linseed Farm Service

Linseed, Manitoba

False loose bush of barley

Last June, we published a description of a barley bush which we appealed to grain buyers, members of junior farm clubs and others to send in, for identification and information of what looked like loose seeds.

The response to our appeal was fairly good, and we are very grateful to all who sent in specimens. Of 500 specimens, 410 proved to be ordinary loose seeds and 181 were true loose bush.

False loose bush has less common bushy hair and is shorter. In Alberta, 20% of all loose bush specimens, 95 (32%) were false loose bush; and in Manitoba, 20% of all loose bush specimens, 70% of all Saskatchewan specimens and only 47% of all Manitoba specimens were false loose bush.

In other words, it looks as though Alberta may be keeping false bush, much down by seed.

It is also significant that of 55 Newal specimens, only nine were false loose bush, while 46 were true loose bush in Alberta. Of 69 Flax specimens, 40 were false loose bush.

Flax is concentrated in Manitoba.

Due to the nature of the material, the above remarks must be regarded as suggestions rather than conclusions.

**PASSING***And The***PERMANENT****At the Peace****TABLE**

Says Pastor A.B. Coker of Chicago: "It has become a commonly recognized fact that the unchristian settlements of the last war gave birth to this newer and greater struggle for universal equality of opportunity. At the last peace table the French prime minister said, 'Oh, Wilson takes like Jesus Christ.' The traged of the past war was that it was blamed to a world which took France's attitude instead of Wilson's."

**What about the  
FUTURE**

The Protestant Voice says that according to their chaps, the servicemen who have seen combat are interested in three things: the future of the world after peace comes, the changes that need to be made in their homeland and the place religion will play in society from now on. They are worried about the future and the nature of religion. They have seen what faith can do for a man facing death, and they think more of it would be good for men facing life.

**RELIGIOUS****IGNORANCE**

In London, England, a 16-day evangelistic campaign was held recently, called "Faith for Our Times." The leaders were appalled at the religious ignorance they found among the people. "Out of 100 men asked to name the three persons in the Bible," one told them, "only 70 could add anything to the first few words." Not one of 50 girls knew what Easter means and one factory girl asked, "What's it in aid of?" England and America, the foremost nations in the missionary movement, have a missionary job to do right at home.

**D-Day Penance  
PARADE**

Parents of American servicemen crawled two blocks on hands and knees to offer D-Day prayers in a certain church in the Latin American quarter in Corpus Christi, Tex. An 80-year-old woman joined in the 15-minute parade over the rough road.

We send missionaries to India to convert the Hindus from similar ideas; the priests of Baal, too, thought they could make their prayers more powerful by afflicting themselves; but this D-Day penance was done here in America in the name of Christianity!

**Flying  
Bombs**

Although thousands of lives have been taken by flying bombs, we can be thankful that as yet the German scientists have been unable to discover a satisfactory method of guiding these deadly missiles by radio. The time will

come, however, if Jesus tarries, piloted planes will, in machine-like eyes will be able to seek out their targets with terrifying accuracy. Such planes were proposed several years ago by Dr. Lee DeForest. He stated: "In flight such a plane would be steered and operated by radio from a control plane that could remain as far as ten miles away. The flying bomb would contain a television transmitter and a radio-command receiver. Using the information relayed to him from the robot plane's television set, the pilot of the control plane would be able to steer the robot directly over the target to dive into the target." One can easily imagine the potential powers of such a weapon, should it be developed.

**Five Million  
Liquidated**

Approximately five million Jews have been liquidated, it was announced recently in Berlin, Switzerland, in popular newspapers containing official reports. The Nazi regime stated that "they were taken up to the present time, five million Jews have been eliminated in various countries of Europe" and that "There are still about 500,000 Jews to be dealt with in Hungary." It boasts that the Jews have suffered such heavy losses in Poland, for example, that the population of Warsaw has been reduced to a mere 100,000. The Nazis have been "completely annihilated." The liberation of Eastern Europe cannot come too soon for the suffering Jews who are still alive.

**A Voice  
from on high**

Life magazine told of the articles found in the pockets of a dead American soldier: a guide for New Zealand, sewing kit snapshots of a girl and a baby, receipts for money orders sent home some coins, an unfulfilled identification card and a notebook in which was written with an awkward hand:

"This is the time for a new revelation. People don't think much about religion nowadays. But we need a voice from on high, brother, and I don't mean maybe. This has got out of human behavior to me. I'm no religious fanatic, but we are in a situation where something better than human brains has got to give us advice."

The soldier was right—we need a voice from on high, something telling against God's earthly Governor, Satan the prince of all the kingdoms of the world, yet will in the end be cast into the pit and made harmless. Christ will come again in glory to earth, to reign, even as He went away from earth, and I look for His return day by day, I believe the Bible to be God's Word, because as I use it, a transformation correcting evil tendencies, purifying affectionate giving, purifying.

Teaching concerning the righteousness of God which those who do not do us it can know nothing of. It is really food for the spirit as bread is for the body.

Perhaps one of my strongest reasons for believing the Bible is that it reveals to me, as no other book does, the way to do that which applies to me as a physician's diagnosis of my spiritual condition. It shows me clearly what I am by nature—one lost in sin and alienated from the life that is in God. I find it as a consistent and wonderful revelation of the character of God—a God far removed from any of the natural imaginings.

It also reveals a tenderness and nearness of God in Christ which satisfies the heart's longings, and shows me that the infinite God, Creator of the world, took our very nature upon Him, that He might in infinite compassion with His people to redeem them, I believe in it because and it reveals religion adapted to all classes and races, and it is intellectual suicide, knowing it, not to believe it.

No man wants work as work.

"Therefore now hast thou commandment from me, that I may know what to do unto thee." Exo. 33. 12

If you are not satisfied, your money will be refunded.

**Believe**

Dr. Howard A. Kelly, of Baltimore, with academic professional and honorary degrees from the Universities of Pennsylvania, Washington and Lee Aberdeen and Edinburgh holds a place almost alone in his profession of obstetrics and gynecology in John Hopkins University, his position has been beyond question the highest in America and Europe, and his published works cause him to be reckoned the most eminent of all authorities in his own field,

I believe the Bible to be the inspired Word of God, inspired in a sense utterly different from that of any merely human writer. The New Testament states that "the Word was made flesh and dwelt among us." We believe this at this instant to be true, and that it was impossible for it not to be true, and since it was not possible for it not to be true, we believe it to be true. The Son of God himself came down to earth, and by so shedding his blood he became God.

What if it were not true? What if it was really not the God whom we have been picturing to be? What if, after all, we Jews had made a mistake in rejecting him? No other Jewish prophet or saint ever claimed to be born of a virgin, in a miraculous way. We Jews always start to read this allusion to Jesus' birth. We said, that since it was impossible it could not be true, and since it was not possible for it not to be true, we believe it to be true.

The Son of God himself came down to earth, and by so shedding his blood he became God.

## THE STORY OF CHILDREN'S UNDERWEAR

EVERYbody—babies and children must have underwear—and the Wartime Prices and Trade Board has given special attention to the production of these garments.

The problem has not been so much one of lack of raw materials, but of getting the raw materials (wool, cotton, rayon) spun into yarns and then knit into garments. Canada has never produced all

the wool, cotton and rayon she requires. We have to import some, but we get a large part of our requirements from other countries, even in peacetime. But since the war, there has been an acute shortage of underwear yarns everywhere.

There has been a greatly increased demand in addition to production difficulties. The efforts of the Board to meet the problem are given below.

### THE INCREASED DEMAND RESULTED FROM:

- More babies . . . it's especially busy now, with 700,000 babies born every year.
- Reduced use of second-hand or "hand-me-down" garments.
- Increased consumer buying . . . more people with more money.
- Local home sewing . . . mothers have been working outside the home.
- Extra buying . . . perhaps too many people are trying to be "on the safe side."
- Huge demand for underwear by Armed Forces.

The reason is that it just has not been possible to produce with the skilled workers and machines available to the United Nations enough yarn and garments to meet the increased demands all over the world.

### WHAT HAS BEEN DONE ABOUT IT:

✓ First of all the Board found out the kind and quantity of garments Canadian children must have. This helped that the public is asking for more than is actually needed.

✓ So plans were made to see, by directing production all down the line, if we could meet the swollen demand as nearly as possible.

✓ Each manufacturer was told to produce an increased number of garments.

✓ A constant check is kept on mills to see that they are producing the required numbers.

✓ Manufacturers not previously making children's underwear were induced to go into its production. An

additional 600,000 garments will be provided this year from these sources.

✓ Negotiations were conducted with production authorities in other countries for supplies of yarn to Canadian knitters for use in children's underwear.

✓ Primary cotton mills were required to divert spinning facilities from fabric manufacture to the spinning of underwear yarns.

✓ Arrangements were made through National Selective Service to direct more workers to the underwear mills.

✓ A special campaign was launched to enlist part-time workers.

✓ Distribution to retail stores was organized to ensure equitable supply to all areas.

The greatly increased supply of children's underwear resulting from these efforts is shown by the relative sizes of the figures below.

## Alberta Men for Tourist Parley

Alberta will be fully represented at the annual meeting of the National Tourist Advisory Council earlier this year by the Dominion government is held at Windsor, Ont., on Sept. 25-26 according to officials of the Alberta Motor Association.

A brief from the A.M.A. dealing with the need of making plans now for the post-war period, and the work to be undertaken involving the provincial organizations of the A.M.A. and the various associations present at the session will be R.A. Godson, president of the A.M.A.

Other Alberta members of the council are Premier Manning who also is minister of trade and industry; D. E. C. Campbell, director of the Alberta provincial economist; C.H. Grant, K.C. counsel for the A.M.A.; an president of the National Parks Highways association and James Brewster, of Banff.

## Educational NEWS

National War Finance Committee at Ottawa have recently formed an educational section with Provincial educational workers in each province designed to reach all communities in the Dominion

in connection with War Finance activities.

Mrs. H.A. Craig, who has been identified with War Finance activities in Alberta since the beginning of the war, has been appointed "Alberta" Chairman for this section, and Mr. E.W. Brundsen, of Calgary, Vice-Chairman.

The purpose of this Committee is to provide for a program of contests in every Alberta schoolroom designed to stimulate interest in citizenship and War Finance, are now being arranged by the Education Department of Alberta. A special phone call for contests in all rooms from Grade Four to Grade Twelve inclusive. Successive eliminations will be held in War Finance Units and Divisions until the final is reached. A system of awards for winners will be arranged, together with arrangements for the appearance by leading contestants on public platforms and on radio programs. Educational material now being prepared for distribution to the schools includes information on current affairs citizenship, general knowledge, as well as the important facts about the Seventh Victory Loan.

Teachers and parents will recognize the educational value of this work in addition to its patriotic spirit. The welfare of War is one of the greatest importance at the present time and for the future.

Mr. Duncan Innes has been appointed as supervisor of this program. Mr. Innes has been a school teacher in Edmonton for a num-

ber of years, and has been associated with various kinds of educational work.

He is particularly well fitted to direct these contests and it is hoped that War Finance Committees, travel teachers and educational assistants will give full support to this undertaking.

Continuation of the educational program in Alberta will be carried through press and radio, and all foreign language publications. A pamphlet published in eight different languages namely Ukrainian, Polish, German, French, Italian, Spanish, Norwegian and English will be distributed through provincial post offices to reach all communities in these various languages.

## Liberal Government Sets Pace for Peace

It is a good thing that, during the last session of Parliament, the government gave the lead in a wide variety of measures to assure prosperity and a high standard of living for Canadians after the

war. When the economic impetus of war diminishes, the Liberal government proposes to take immediate action to return the nation to a peacetime basis. Floors under farm and fish prices; unprecedented aid for exports; maintenance of same and more, shorter working hours; lower rents; easier and cheaper credit for farmers and government aid to help small town industries develop profitable peace time production; family allowances; war service compensation; minimum wage regulations—these and other parts of the big post-war program give promise of good times in the peace to come.
